Agent Decision Rationale

Template Selection Process:

Template Recommendations:
• About 1 (Score: 0.60)
Reasoning: Fallback scoring applied due to LLM parsing error

Workflow Decision Process:

Phase: template_recommendation
Decision: Generated template recommendations
Reasoning: Generated 1 template recommendations based on requirements analysis

Phase: phase_transition
Decision: Transitioned from Phase 1 to Phase 2
Reasoning: User selected template and requested editing, transitioning to UI editing phase
